

# EMILY CARLIN

## **Classes, Workshops and Consultations**

Emily Carlin teaches workshops on a variety of topics. Below are some standard workshops she has taught in the past. This list is by no means exhaustive. If you are interested in having Emily present on a topic listed or not listed here, simply inquire via email.

### **Magickal Munitions (1 hour)**

Magickal self-defense specifically for those of us who live or work in the city. Learn magickal methods to increase your awareness, prevent being hassled in a crowd, improve your work area, and safeguard your home. We'll be looking at auric control, magickal camouflage, wards, witch bottles and more. This workshop is appropriate for people of all levels of skill and experience, from any path. All you'll need is an open mind.

### **Defense Against the Dark (1-2 hours)**

An introduction to things that go bump in the night and how to bump back. Learn the lore and magickal reality of several harmful magickal creatures and occult happenings, including ghosts, energy vampires, and curses. Further, this workshop will give you concrete methods for protecting yourself from both malevolent entities and malicious magick in everyday situations including shielding, magickal cleansing, and more.

### **Psychic Protection for Ghost Hunters and Paranormal Investigators**

Paranormal investigators face a unique challenge in terms of psychic self-defense. They want to keep themselves safe but still want to have paranormal experiences; how can we ward off dangers while inviting safe experiences? Learn cleansing and shielding methods modified specifically to keep you safe while not scaring off the entities you're investigating.

### **Common Magickal Pests**

The world is full of strange and wondrous things, not all of them benign. This class attempts to present some of the magical pests people are most likely to

encounter in their day to day lives: imps, pixies, residual hauntings, intelligent hauntings, poltergeists, and human energy-takers.

### **Understanding Magickal Intent (1 hour)**

In order to perform successful magick one has to truly understand magickal intent. Many books direct practitioners to focus their will and concentrate their intent, but never help the practitioner figure out where their intent should be directed. This workshop will help attendees look more deeply into what they really want and help clarify where to direct their magickal energies to get the best possible results.

### **Shadow Magick (1-2 hours)**

Shadow Magick is the art of working with dark and uncomfortable truths in order to achieve a positive result. It is using magick to looking deep within oneself and see at what isn't working, the things that are broken, and changing them by bringing those shadows into the open and embracing them. We will look at techniques for seeing oneself clearly, bringing shadows into the light, and releasing that which no longer serves.

## **Private Consultations**

Emily is available via e-mail and Skype for private consultations on general magick, paganism, shadow magick, magickal defense, tarot readings, and friendly counsel.

Emily does NOT do magick for people. She will help you learn how to your own magick but will not do a spell for you.

Emily does NOT do healings of any kind. Some people are amazing healers – Emily is not one of them.

## **Contacting Emily Carlin**
